

## We Can Track Just About Anything

TruGuard helps businesses protect, track, and manage high-value assets with reliable, commercial-grade technology built for real-world operations.

### TruGuard MT: Wireless Asset Tracking

TruGuard MT is a fully wireless, self-powered tracking solution designed for flexible deployment across any asset, giving you long-term visibility without installation or maintenance.

#### RapidResponse™

TruGuard MT includes RapidResponse which means the device stays “awake” and can quickly respond to commands, change power modes, provide location data, and more within minutes.\*

#### Beyond GPS+™

When assets go “undercover” in places traditional GPS can’t reach, TruGuard MT features Beyond GPS+ tri-location technology (GPS, Cellular, Wi-Fi) providing you vital location information, even when GPS alone cannot.

#### 12+ Months in Full Power Mode

TruGuard MT’s Active+ Mode is a Full Power mode complete with live locates, geofences, real-time data and more that can last up to 12+ months, giving you wired-device-like features in a wireless device.

#### Waterproof & Dust Tight

TruGuard MT is IP66 & IP68 certified which means it’s dust tight, waterproof\*\*, and protected against forceful water spray, giving it the rugged durability needed to be used in all types of environments.

\*Subject to cellular network coverage. |\*\*Protection from continuous immersion in water for up to 6ft depth for 60 minutes.

## Device Features

- Reliable Location Tracking
- 4G/5G Compatible Network
- Up to 5+ Years Battery Life
- No Installation Required
- One-Step Activation
- Geofences
- Ultra Lightweight & Compact Design

## Multiple Mounting Options

With three mounting options, you can easily select the one that best fits your needs.

Magnet-Mount Bracket

Screw-Mount Bracket

Rugged Case

All Mounting Options are Available in Black or White

## Flexible Power Modes

Switch between two different Power Modes for ultimate flexibility in balancing the features you want with the battery life you need.

### Endurance+ Mode

Auto-locates every 25 hours. Automatic and low maintenance, this mode is perfect for maximizing battery-life and can be switched to Active+ Mode at any time to enable activity monitoring and live locates.

### RapidResponse™

TruGuard MT includes RapidResponse, which means the device stays "awake" and can quickly respond to commands, change power modes, provide location data, and more within minutes.

### Active+ Mode

Full-Power functionality that reports location at the start and end of each trip and allows live locates at any time. Auto-locates every 49 hours. Excellent when activity monitoring is essential.

## TruGuard Portal

TruGuard's custom-built asset management portal is a state-of-the-art system for you to manage every aspect of your account and it includes:

- Advanced Mapping & Location Data
- Pre-built and Customized Reports
- Real-Time Alerts
